

### HOME WATER USE SURVEY DATA SHEET

Tally the number of times you/family does each of the activities throughout the 4 day period, and then find the total of the 4 day data. Then multiply by the average gallons of water used.

| Activity                                     | Day 1 | Day 2 | Day 3 | Day 4 | TOTAL | (X) Avg. #<br>Of<br>Gallons | =<br>Equals in<br>Gallons |
|--|-------|-------|-------|-------|-------|-----------------------------|---------------------------|
| Bath – Tub ½ full                            |       |       |       |       |       | 18 gal.                     |                           |
| Bath – Tub 1/3 full                          |       |       |       |       |       | 12 gal.                     |                           |
| Bath – Tub ¼ full                            |       |       |       |       |       | 9 gal.                      |                           |
| Shower -<br>Low flow shower head             |       |       |       |       |       | 2.5 gal.<br>per mi.         |                           |
| Shower -<br>Standard shower head             |       |       |       |       |       | 8 gal.<br>per min.          |                           |
| Toilet Flush – Low flow toilet               |       |       |       |       |       | 1.6 gal.<br>per flush       |                           |
| Toilet Flush – Standard toilet               |       |       |       |       |       | 4 gal. per<br>flush         |                           |
| Brush Teeth with<br>water running            |       |       |       |       |       | 3 gal<br>per min.           |                           |
| Wash Hands – Low water<br>flow               |       |       |       |       |       | 1.5 gal per<br>min.         |                           |
| Wash Hands – High water<br>flow              |       |       |       |       |       | 3 gal per<br>minute         |                           |
| Clothes Washer – Low flow<br>washing machine |       |       |       |       |       | 18 gal.<br>per use          |                           |
| Clothes Washer – Standard<br>washing machine |       |       |       |       |       | 48 gal per<br>use           |                           |
| Dishwasher                                   |       |       |       |       |       | 11 gal.<br>per use          |                           |
| Wash Dishes – Low water<br>flow              |       |       |       |       |       | 1.5 gal.<br>per min.        |                           |
| Wash Dishes – High water<br>flow             |       |       |       |       |       | 3 gal. per<br>min.          |                           |
| Lawn Watering                                |       |       |       |       |       | 10 gal.<br>per min.         |                           |
